

SCADA Analyst/IT Administrator

Position Summary

We are seeking a technically savvy & personable individual to fill the role of SCADA Analyst/IT Administrator. You will be joining a fast-paced team in supporting our SCADA as a service product offering and our IT infrastructure company-wide. This position is multifaceted, and can include network admin, server admin, SCADA admin & development, phone-based customer service, and software development depending on the person selected.

This position is in Farmington, NM. Travel would be minimal. Position does include on-call time.

Responsibilities

- Monitor SCADA communications & work with our technicians and customers to troubleshoot comms or production issues
- Work with our Engineers & technicians to bring new facilities online and build accompanying objects, screens, reports, alarms, etc.
- Maintain & grow internal network & server infrastructure.

Desired Experience

Experience in one or both of the following areas is highly preferred:

- SCADA system design, configuration, or maintenance – ClearSCADA especially.
- IT – Windows admin, network admin, computer repair, etc. – Certifications are helpful here.

Experience in or knowledge of the following areas is a plus, but not required:

- Technical support or customer service
- Software development
- Oil & Gas field experience
- RTU configuration
- VMware

Benefits

- 401K AND UP TO 6% MATCHING CONTRIBUTIONS
- HEALTH/DENTAL/ VISION BENEFITS (BLUE CROSS+BLUE SHIELD)
- SUPPLEMENTAL INSURANCE AVAILABLE WITH AFLAC
- PAID HOLIDAYS
- PAID TRAINING
- SAFETY INCENTIVE PROGRAM
- VACATION PAY
